e-mail : ptc@bdu.ac.in

Annual Report (2013-14)

Activities of the Placement & Training Cell (PTC)

Vision and Mission

- Improving multiple skills of the students including soft skills and guiding them to secure good jobs, choose right career paths, and lead joyous lives; thereby to shape them to become good citizens and good human beings.
- The Placement and Training Cell (Career and Counselling Cell) understands the career objectives of students keeping in mind the current trends in the competitive world. In this respect it's mission is to impart multiple skills to students by organizing various skill development and career counselling programmes and workshops. It also aims to facilitate students to secure good jobs by conducting Recruitment Drives and Job Fairs.

Objectives:

- To gather information on job avenues and placements in different institutions and concerns related to the courses that the University offers.
- To analyze information in the local, regional and national contexts to explore its relevance and utility for the students in their placements and on-job-training.
- To organize seminars and guidance workshops for informing students about the emerging professional trends and events, job profiles, leadership roles, entrepreneurship, market needs and risks and implementation of national socio-economic policies and to impart training in soft skills.
- To promote discipline, healthy outlook and positive attitudes towards national integration and removal of narrow provincial preferences and prejudices.

Guidance for competitive examinations

Competitive exams in India are conducted as an entrance to Government and Public sectors. The UPSC (Union Public Services Commission) & TNPSC (Tamil Nadu Public Services Commission) conducts dozens of exams each year for entry into central and state government services, civil services, combined Medical and Engineering services, Economic service and the Indian Forests services. Our University arranges Counselling and Guidance through seminars and guest lecturers from time to time to encourage the students to prepare for Competitive Examination.

Career Counselling

Career Counselling deals with individual needs, confidential support and advice about areas of study and possible career interest, developments and changes. We provide counseling for students to uncover the potential opportunities in their respective fields and help them to plan their career path. We also engage students to work with industry professionals who understand the difficulties of choosing a career that is rewarding and makes one feel fulfilled.

Soft skill development

Our work ethic, attitude, communication skills, emotional intelligence and many other personal attributes are the soft skills that are needed for career success. Problem solving, delegating, motivating, and team building are some attributes of soft skill. Soft skills are less tangible and harder to quantify, such as etiquette, getting along with others, listening skills and Interpersonal skills. These skills are imparted to students through soft skills development workshops and programmes.

Remedial coaching

As per the UGC guidelines, education is meant not only to nurture the excellence already in a gifted person but also to uplift the not-so-gifted, so that he / she is equipped to safeguard his / her interests in independent democratic India. The Constitution of India recognizes the SCs and STs as the two most backward groups needing special protection. Further, democracy demands the necessity to protect and foster the interests and needs of the minority groups. In order to enable students belonging to SC / ST / OBC (non-creamy layer) / Minority communities, who need remedial coaching to come up to the level necessary for pursuing higher studies efficiently and to reduce their failure and drop-out rate.

In the is respect, remedial coaching is provided for those students who are not able to cope up with regular class-room teaching, not so motivated and / or belonging to SC / ST / OBC (non-creamy layer) / Minority community. Under the program our University teachers and invited experts in the respective fields provide coaching to such students. Feedbacks are collected from the students to enhance a positive attitude and motivation.

Language lab

Language lab provides the learners with a strong platform for theoretical as well as practical training in the languages. Our University language lab skillfully and efficiently develops the language skills of the learners. They are exposed to functional language in use and are familiarized with the many pronunciation styles that are vital in everyday usage of the language in today's world. Language labs also provide scope for learning language through games and practice exercises.

Bridge courses

Bridge course is a University prepared course with a unique curriculum that is offered to students as a means of preparing for the academic challenges they find as a hindrance in their education. Our University arranges for bridge course through seminars and guest lecturers from time to time to encourage the students to such gaps.

Yoga and Meditation

Yoga and Meditation are great ways to keep our mind, body and soul healthy. Yoga is not only rejuvenating for the body, but also the brain. Yoga postures were designed to prepare the body to meditate and transcend. Meditation is a necessity in our adroit lives, and yet it does not come easily for most people. Sitting up calm and straight for which we may not use to it, but in time we can develop it. Research proves when students were evaluated in the hour after their yoga class; they showed significantly higher self-enhancement than when they hadn't done yoga in the previous 24 hours.

Personal Counselling

Personal Counselling is available to students who find that personal problems are blacking with their quality of life and University performance. If students have any academic or personal concerns, they don't have to wait until they grow in crises. They can request for support in following areas:

- Improve personal well-being
- Develop quick self-awareness
- Discuss academic and career directions
- Enhance personal and academic resilience
- Address mental health concerns (i.e. anxiety, depression)
- Develop better intrapersonal and Interpersonal
- Heal from personal problems / socially violent or traumatic experiences
