Sensitization and Training Programme on
Community Based Rehabilitation**

14/10/2014

Sensitization and training programme on community based rehabilitation and rights for the differently abled was organized for college students on 14/10/2014.

The training program sensitized the students and teachers from various colleges on the need and significance of community based rehabilitation. Strategies and techniques of rehabilitation were taught to the students.

Sixty-two students from various colleges participated in the training programme. Students were sensitized about the hurdles faced by differently abled and their role in helping their peers with disability.
