in
Distance Education*

12th April, 2019

Organized by

Department of Education
Centre for Distance Education
Bharathidasan University
Tiruchirappalli-620 024
Tamil Nadu, India

About the University

Bharathidasan University was established in February 1982, and named after the great revolutionary Tamil Poet, Bharathidasan (1891-1964). The motto of the University "We will create a brave new world" has been framed from Bharathidasan's poetic words "புதியதோர் உலகம் செய்வோம்". The University endeavours to be true to such a vision by creating in the region a brave new world of academic innovation for social change. The University's main Campus was initially located in a sprawling area of over 1000 acres in Palkalaiperur.

However, as years passed on, the South Campus at Palkalaiperur with the available infrastructure was donated to the newly started Anna University of Technology. Very recently, another portion of the land has been allotted to the Indian Institute of Management (IIM), Tiruchirappalli. Also, the University has a downtown campus at Khajamalai, which housed originally the Autonomous Post-Graduate Centre of the University of Madras at Tiruchirappalli. In addition to the administrative complex, which includes the Vice-Chancellor's Secretariat, Registrar's Office, Finance and Examination offices, most of the academic departments and research laboratories are located in the main Palkalaiperur Campus. The downtown campus has the Departments of Social Work, Computer Science, the Centre for Remote Sensing, the UGC-Human Resource Development Centre (Formerly UGC-Academic Staff College) and others. Besides these, the Bharathidasan Institute of Management popularly known as BIM (adjudged as one of the top business schools in the country) is located within the BHEL premises, a public sector undertaking at Tiruverumbur.

About the Department

The Department of Education was established in the year 2006-07 at the Centre for Distance Education to run the B.Ed programme through Open and Distance Learning (ODL) mode with the Annual intake of 500 student teachers by obtaining recognition from the National Council for Teacher Education by fulfilling the NCTE 2014 norms. The main objective of this department is to provide opportunities to the trained in-service teachers at the primary school level from handling lower level classes to high school subjects with respect to their pedagogy discipline.

Objectives of the Conference

1. To share the knowledge of education through distance Mode by inviting experts in education from abroad.
2. To share the experience of the present distance education programmes in neighboring states.
3. To share the knowledge of education through distance Mode by inviting experts in education and research.

Main Theme

Educational researchers play a vital role to make tremendous changes in Teaching and learning process in distance education programmes throughout the world. Teaching and learning processes have changed over a period of time due to the innovations of technology in distance education. Researchers in this field are trying to find solutions for existing various distance educational problems. The approaches are much more utilitarian as it strives to find information that will directly influence practice. By reviewing the above aspects, this one day International Conference plans to expose the global challenges among functionaries and beneficiaries of distance education in India also the main idea of this conference is to share the ideas of distance education programmes in various countries regarding social, political and economical challenges through Distance Education. It will also discuss the various issues related to distance education programme in the present day context.
