## BHARATHIDASAN UNIVERSITY

The Government of Tamilnadu established the Bharathidasan University at Tiruchirappalli in February, 1962, was named after the great revolutionary Tamil Poet, Bharathidasan. The University aims at developing citizens with knowledge, skills, character contributing to societal transformation and National development in the consonance with our motto "WE WILL CREATE A BRAVE NEW WORLD" has been framed by Paventher Bhrathidasan. The University is one among those recognized by the UGC for receiving grants as per section 12b of UGC act. It has been Re-accredited with 'A' Grade by NAAC in 2012. The University has grown with an excellent research base, offering PG and research programmes through 40 schools, departments and applied research centres. As of now, the University has 104 Arts and Science Colleges, 13 Approved Institutions, Eighteen of the affiliated colleges are autonomous. The student strength in the affiliated colleges is over 1.50 lakhs.

## DEPARTMENT OF MICROBIOLOGY

The Department of Microbiology emerged from the parent Department of Plant Science during 1992 and offering post graduate and research programmes since 1995.

The Department has been equipped with basic to advanced instrumentation facilities from the University as well as support from UCG NON-SAP and DST-FIST for successfully running the M.Sc., M.Phil., and Ph.D., programmes. A number of Research grants is being received for several crores from various government funding agencies such as CSIR, DBT, DST, ICMR, IFS, INSA, MoEF, MoES, UGC, etc. With respect to service the faculty members have been exemplary recorded for participation in national and international organization, editing professional journals and reviewing grant proposals from regional and national organizations.

## TRAINING PROGRAMME

Mushroom cultivation is a new investment opportunities for the weaker sections, so that they can start their business on a small - scale level with techno - economical methods utilizing their rural level resources in a very effective manner. High number of human population also means potential market. The future will demand a strong mushroom food industry in the Nation and will call for added strength in food science and technology.

The Mushroom Training will be helpful to the rural population to start small scale, large scale mushroom production as self employment of farmers, self help group women's, students, unemployed youth.

The participants are trained for preparation of spawn, Mushroom bed, design & Infrastructure of Oyster Mushroom production farm, pest & disease management, harvesting, preservation of mushroom, marketing of mushroom in local market, retailer, export market and Mushroom recipes.

## WHO ARE TO APPLY

Farmers, Self help group women's, Student, Unemployed youth.
