

BHARATHIDASAN UNIVERSITY, TIRUCHIRAPPALLI – 620 024.

SCHOOL OF BASIC MEDICAL SCIENCES

DEPARTMENT OF BIOMEDICAL SCIENCE

ORGANIZED A WORKSHOP ON

“TECHNIQUES IN CLINICAL HEMATOLOGY AND BIOCHEMISTRY”

(TCHB-2018)

Date: 3rd April, 2018

The workshop was organised to enable the student participants to understand the principle and significance of routine clinical parameters analyzed in the clinical laboratory for the disease diagnosis and as well as to provide hands on training in routine Clinical Hematology and Biochemistry techniques. The Workshop was inaugurated by Prof. N. Thajuddin, Dean, Science and Engineering Technology, Bharathidasan University, Tiruchirappalli by releasing the workshop manual. He also delivered the inaugural address to the gathering. Dr. K. Nirmaladevi Professor and Head, Department of Biochemistry, K.A.P. Viswanathan Medical College, and Tiruchirappalli served as the chief guest on this august occasion. The workshop comprised a scientific talk & a practical session that was presided by the event organizers Dr. S. Shanmugaapriya and Dr. S.D. Saraswathy, Assistant Professors of Department of Biomedical Science with a brief introduction on the background and principle of the techniques and clinical significance of the study parameters in disease diagnosis. During the workshop the students performed various assays individually and measured different end points with the human blood and urine samples. As a whole the workshop gave enough academic delight to the participants who were immensely benefited by the way of appropriate technical and practical training.
