Re: Mr. B. Raju

To whom it may concern:

This is to confirm that Mr. B. Raju from Bharathidasan University (Tamil Nadu, India) has carried out a six month project on "*Finding novel interactors of RanGTPase and RanBP9*" in my group at the Weizmann Institute of Science, from February 2014 to July 2014. His direct supervisor was Dr. Christin Albus.

Sincerely,

Michael Fainzilber, Ph.D.
The Chaya Professor in Molecular Neuroscience
