UNU-Shimadzu Joint Project: Monitoring and Management of POPs in Asia
Analysis session, 14-18 September 2015, Republic of Korea

Dear Dr. Nikhil Nishikant Patil,

It is my pleasure to invite you to the forthcoming LCMS Analysis session of perfluorochemicals (PFCs) for Phase VI of United Nations University (UNU)-Shimadzu joint project. The session will be held from 7-11 September 2015 at Chonnam National University, Yeosu, Republic of Korea.

At the analytical session, you will analyze environmental water samples that have been captured within India with LCMSMS facilitated at Chonnam National University by UNU-Shimadzu joint project.

Your expenses including economy excursion airfare to Yeosu, local transportation, accommodation and a per diem will be funded by UNU.

I look forward to hearing from you soon, and we hope that you will carry out the analysis successfully in the Republic of Korea. In the meanwhile, please do not hesitate to contact Mr. Eiko Takashita (takashita@unu.edu) if you have any questions or comments.

Sincerely yours,

Osamu Ito
