CERTIFICATE OF STAY

To Sir

22 March 2017

Prof. Sonachalam Arumugam has stayed as a foreign guest researcher at my lab. in the Graduate School of Engineering, Muroran Institute of Technology, Muroran, Japan during 9 March – 22 March, 2017 to investigate bismuth sulfide superconductors under high pressure and low temperature and learn experimental techniques of DAC resistivity measurements. The above said period was most suitable due to the availability of machine time, technician and senior group members in the lab. I hope the collaboration with Centre for High Pressure Research, Bharthidasan University will be strengthened further after his visit to Muroran.

As stated above, I certify that Prof. Sonachalam Arumugam stayed at Muroran Institute of Technology as a foreign guest researcher.

Chihiro Sekine
Professor, PhD
Graduate School of Engineering
