SCHOOL OF BIOTECHNOLOGY  
BHARATHIDASAN UNIVERSITY  
TIRUCHIRAPPALLI - 620 024

CERTIFICATE

This is to certify that the dissertation entitled, "*Exploring the therapeutic potential and function of BRCA-associated protein 1 (BAP1) missense mutations*" is submitted to Bharathidasan University, Tiruchirappalli - 620 024 for the award of the degree of Master of Technology in Biotechnology, is an authentic record of work carried out by S. Suresh (Reg. No. 12MTBT31) under the guidance of Dr. S. Sivaramakrishnan, Head of the Department, Department of Biotechnology, Bharathidasan University, Tiruchirappalli.

Place: Tiruchirappalli

Concerns: Certificate for Master Thesis

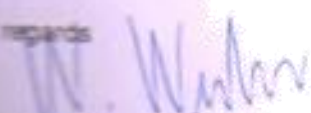

Dear members of evaluation committee,

We are writing this letter to certify that Mr. Suresh Sivakumar has currently doing his joint project in my lab and also with my collaborator and He is showing a high motivation towards his project and He is currently working in a project on the functional charecterization of novel BRCA-associated protein 1 (BAP 1) mutants, frequently observed in cancer but not yet fully characterized, in order to define better therapeutic strategy.

In this project, state of the art technologies is being used by him and the results obtained in experiment models will be confronted to our large tumor bank and primary cell culture collection, which is the larest available in Europe. Mr. Suresh Sivakumar is actively participating in this project and We are confident that he will contribute even more to this research project.

We wish him success for his future endeavours.

Best regards

  
Prof. Walter Weder, MD  
Director of Department  
Department of Thoracic Surgery,  
University Hospital Zurich
