

**ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK
ACADEMIC YEAR 2016-17**

STUDENTS			
S. No	Recommendations	Action Taken	Departments
1.	Suggested to revise the course structure and content of the syllabus	Course structure and syllabus revision made in the BoS held in 2017-18	Animal Science
2.	Recommended to include logical reasoning and Thesis writing lectures which they feel that it would help them to face competitive exams and writing manuscripts'	As per the suggestion logical reasoning and mental ability skills were included in the value education. Thesis writing lectures and general studies are included by means of science club (Biomed Futura) activities through invited lectures. In addition self study framed to train the students, to improve their ability to design scientific projects and thesis & manuscript writing skills'	Biomedical
3.	Suggested to arrange more field trip to visit various advanced labs and centers to have exposure on hands on training for advanced technologies.	Considered and arranged field visit to various leading labs and centre.	Botany
4.	Need Soft Skills, technical Skills and personality development programmes	Soft Skills, Technical Skill, Communication Skills and personality development program will be arranged in the fourth coming academic year 2017-18.	Computer Science
5.	Suggested to introduce new courses with Corporate relevance and also on Environmental Governance. Requested the inclusion of summer internships/Industrial visits and training programme in the curriculum	Considered. Remote Sensing and GIS for Environmental Governance & Decision making and Corporate Environmental Strategy were given as core courses. Environmental Health and Safety Management and Industrial Safety and Hygiene were offered as an Elective course. Industrial visit and summer internship were made compulsory for all students.	Env. Management

	Suggested to include more field trips, soft skill development programmes, SCUBA diving programmes and onboard training programmes	Considered and will be implemented from the next academic year onwards	Marine Science
6.	Suggested to increase the choice of elective paper, arrange more field trip and incorporated modern analytical and genomic method based new experiments. Increase the quantity glass wares and diagnostic kits to facilitate better practical session	Considered and incorporated	Microbiology
7.	Recommended to include soft skill, technical skills and personality development programme, Suggested to provide full equipped library and a separate computer for students and research scholars	Soft skill, technical skills and personality development programme will be arranged in the next academic year 2017-18 onwards, steps for the separate library with all facilities will be arranged and a separate computer for students and research scholars has been provided.	Economics
8.	Suggested to extend the duration of the course time and resource material developed in adapted formats like Braille, large print and audio format	Considered and changed the duration of certificate course in office automation and assistive technology has been extended from three months to six months with recent technologies.	Differently Abled Persons
9.	Suggested to need future clarity to understand few of the units from the paper- Foundation of library and information studies, Communication skills.	Considered and the teachers handling the subject advised to make a presentation on the formulation, enactment of the law in general by visiting the websites of the legislative assembly, Parliament, high court and supreme court and explained the different between rules, act and law, provision of implementation of the law	Library and Information Science

10.	Suggested to include new courses on Application of statistical package in social work research along with research project work of course No22 in IV semester of the existing syllabi and Additional specialization on criminology and correctional administration	Considered and incorporated in the academic year 2017-18	Social Work
11.	Suggested to introduce elective subject with employability avenues and revamping internship to forth semester lieu of second as followed at present	Considered and student grievances about internship and elective subjects were taken into account and their requests will be resolved.	Study of Social Exclusion and Inclusive Policy
12.	Suggested to provide reading materials by the teachers for the courses taught and access to a computer with internet to download reading materials and online submission of assignments etc.	Considered and implemented	Womens' Studies
13.	Suggested to updating computerized accounting with GST	Considered and revised the course IT lab and packages for business with the inclusion of Tally with GST.	Commerce and FS

**ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK
ACADEMIC YEAR 2016-17**

FACULTY			
S. No	Recommendations	Action Taken	Departments
1.	Suggested to furnish multiple copies of textbooks in library	Teacher's grievances such as equipping laboratory and library facilities were furnished	Biotechnology
2.	Suggested to include more books in the department library and recommended to revise the syllabus	Considered and inclusion of more books on recent development in the field of botany and also satisfied with the revised syllabus.	Botany
3.	Suggested to purchase recently published books and more number of prescribed books in the next academic year 2018-19	Considered and will be resolved in the next academic year 2018-19	Chemistry
4.	Suggested to purchase more number of prescribed and recently published books for information security	Considered and faculty grievances such as sufficient number of prescribed books will be purchased.	Computer Science
5.	Suggested to include PG programme for the Environmental biotechnology. Recommended to conduct more seminars, training programmes, field trips and Suggested to purchase new text books.	Considered and submitted a proposal for a new PG programme for environmental biotechnology to the university administration. Two international and one national conference were conducted and field trips were organized in the department in addition new text books were purchased.	Env. Biotechnology
6.	Suggested to purchased recently published books	Considered and resolved	Geography
7.	Suggested to subscribe journals, recently published books and number prescribed books in the next academic year 2017-18	Considered and implemented	Geology
8.	Suggested to provide separate classroom and laboratory facilities	Based on the request, the university accepted to provide space for teaching and laboratory for the department	Marine Biotech

9.	Suggested to subscribe to an adequate number of journals and shore laboratory should be established with sufficient lab and boat facilities for experimental and field study. Recommended to provide museum, aquarium and waiting hall for girl's students	Considered and initiated	Marine Science
10.	Suggested to purchase recently published books and more number of prescribed text books	Considered and resolved	Mathematics
11.	Suggested to offer certificate course on Mushroom cultivation technology for UG/PG students and incorporating new core courses like Diagnostic of parasitic disease and identification of medically import vector in medical microbiology, Mycology & Phycology and Rhizosphere Biology	Considered and Incorporated	Microbiology
12.	Recommended to include additional courses such as electromagnetic theory and Atomic and molecular physics	Considered and changed due to insufficient time to cover the syllabus and recent books are not available	Physics
13.	Suggested to purchase recently published books relavant for the current syllabus and need proper maintenance of equipment (Computer, printer, smart class room)	Purchased Sufficient number of prescribed books and improved maintenance of equipment.	Economics
14.	Suggested to complete the syllabus in the allotted time and to refer the recently published book to the related syllabus and curriculum intellectually stimulate the teaching for the students	Considered and implemented	History
15.	Suggested to analyze high quality resources particularly practicing knowledge management and marketing of information products in library felt	Procured International edition of the books and subscribed emerald e-journal collection on library and information science	Library and Information Science
16.	Suggested to incorporate the recently published books in the reference list of MSW syllabus	Considered and incorporated in the syllabus.	Social Work
17.	Suggested to revise the syllabus M.A., Rural sociology and M.Phil social psychology. Recommended	Considered and resolved	Sociology

	to rename one existing core paper ie., Sociology of woman replacing gender and society with relevant modification in the syllabus and suggested to introduce five years integrated M.A.Sociology and certificate course on Social counseling for youth.		
18.	Suggested to procure research oriented books and text books were prescribed in the course curriculum	Teacher grievances such as procuring research oriented books and text books were prescribed in the course curriculum.	Study of Social Exclusion and Inclusive Policy
19.	Suggested to appoint additional faculty and guest faculty to cover the portions and to do justice to the student's library be opened to all the students to use it regularly and e-catalogue may be made available.	Considered and Resolved to request the university for additional faculty members and also guest faculty to ensure regular classes	Women's Studies
20.	Suggested to revise the syllabus	Considered and satisfied with the designing and incorporate new topics in the syllabus.	English
21.	Suggested to include choices for the elective courses in each semester	Choices for the Elective courses included as per BoS	Commerce and FS

ACADEMIC YEAR 2016-17

PARENTS

S.No	Recommendations	Action taken	Department
1	Suggested to provide training for National Eligibility Test	Considered and Incorporated in upcoming academic years	Animal Science
2	Suggested to improve the content of the syllabus to international standard and Appreciated the campus drive was an excellent move by the department	Considered and raised the standard of our students to international standard	Biochemistry
3	Suggested to conduct the campus interview and placement	Considered and students can register themselves at university job portal for the possible employment, department placement coordinator has been in charge to monitor the same	Biomedical
4	Suggested to take additional classes for CSIR-NET and SET	Considered and implemented to take separate coaching for CSIR-JRF/NET/SET and campus recruitment drive were arranged	Biotechnology
5	Suggested that to give proper guidance and suitable support for the future studies and carrier development of their ward	Considered and arranged monthly once future carrier development are communicated to the students and advised to get in touch with the placement cell of the university	Botany (Plant)

6	Suggested to conduct BOS meeting in periodically. Recommended to given sufficient practical knowledge and to improve campus drive.	Considered and incorporated in the forthcoming academic year	Computer Science
7	Placement cell has to be developed in the department. Industrial exposure is required and fee reduction is preferable	Considered and as per staff in charge suggestion for placement and industrial exposures visit to industries. Course fee was reduced compared to previous year	Env. Biotechnology
8	Suggested to introduction of OHSAS and other technical programmes	Considered and incorporated in the forthcoming academic year	Env. Management
9	Parents requested more practical work and campus interview	Considered and enhanced practical knowledge and campus interview	Geography
10	Suggested to conduct BOS meeting in periodically. Recommended to given sufficient practical knowledge and to improve campus drive.	Considered and incorporated in the forthcoming academic year	Geology
11	Parents suggested about their future job opportunities for students	Faculties assured parents to organize more campus recruitments in the upcoming years	Marine Biotech
12	Suggested sufficient practical/ field oriented hands on knowledge. Recommended to revised the syllabus based on employability	Considered and more field trips/industrial/institutional visits should be arranged.	Marine Science
13	Suggested to conduct additional classes for CSIR-NET and SET and	Considered and conducted separate coaching for CSIR-JRF/NET/SET and	Mathematics

	enhance campus recruitment	campus recruitment drive will be enhanced in the next academic year	
14	Requested the faculty to give special attention in improving communication and laboratory skills of postgraduate students to equip their better placement	Considered and incorporated in the forthcoming academic year	Microbiology
15	Suggested to focus on employability, skill development and personality improvement	Considered and incorporated in the forthcoming academic year	Physics
16	Suggested to provide facilities to improve the communication skills. Recommended Coaching for civil services and competitive exams and also to reduce the tuition, exam and hostel fees	Considered and steps to improve communication skills through economic forum in every Friday, provide coaching for competitive exams will be taken in the forthcoming academic year	Economics
17	Suggested to introduce topic related to history of Tamil Nadu for the betterment ward to appear in TNPSC examination. Recommended to introduce research methodology paper.	Considered and implemented	History
18	Suggested to need get trained on the avenues of research, the opportunities for students to pursue the research after their post graduate with fellowship	Considered and incorporated in the forthcoming academic year	Library and Information Science
19	Suggested to revise the curriculum design and positive changes in their	Suggestions were considered and incorporated	Social Work

	attitudes and behavior after joining the MSW course in the university department of social work		
20	Suggested to organize campus recruitment drive for the students	Considered and will be implemented in the forth coming academic year	Study of Social Exclusion and Inclusive Policy
21	Suggested to Field work arranged by the faculty members to get proper response from NGOs.	Considered and resolved development sector representatives were invited to the campus to discuss the structure for field work.	Womens' Studies
22	Suggested to introduce news paper reading practice and case study discussion through self learning.	Considered and the newspaper reading practice and case study discussion through self learning was introduced	Commerce and FS

ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK

ACADEMIC YEAR 2016-17

ALUMNI

S.No	Recommendations	Action taken	Department
1	Suggested to include certain topics in the view of student are making them tedious in understanding and finding it difficult for which counseling and motivation could favour progress. Alumni related activities can be entertained	Considered and implemented	Biochemistry
2	Suggested to improve the good laboratory practices (GLP) and biostatistics	GLP has been included in the course curriculum as a part of Basic lab biosafety paper and also basic mathematics covers basis of biostatistics	Biomedical
3	Provide some sessions to develop communication skills and placement training skills	Considered and activities were enriched in academic year as per the feedback	Biotechnology
4	Suggested to improve the laboratory facilities and conduct alumni meeting regularly	Considered and as per the suggestion add recent developments in the field of botany in the academic year. In syllabus few skills based courses were added	Botany (Plant)
5	Suggested to improve Alumni related activities	Considered and Resolved	Chemistry
6	Suggested to improve	Considered and	Computer Science

	Alumni related activities	incorporated in the next academic year onwards	
7	Requested to conduct alumni meet regularly and to develop rapport between students and alumni	Considered and incorporated	Env. Biotechnology
8	Suggested to include the health and safety and recommended to add energy auditing related courses in the MBA curriculum	Considered and Incorporated in the forthcoming academic years	Env. Management
9	Suggested to participate video conference meeting from other states and abroad	Alumni related activities have to be enriched in the academic year with video conference	Geography
10	Suggested to improve alumni related activities	Considered and incorporated in next academic year	Geology
11	Suggested introduce certificate courses for students especially in bioinstrumentation	Considered and to planned certificate course on Bioinstrumentation for current M.Sc students	Marine Biotech
12	Suggested to conduct Alumni regularly and department activities should be shared with alumni students. Recommended to introduce value added courses with more research and employability importance	Considered and introduced value added courses (Integrated Multitrophic Aquaculture) from next academic year.	Marine Science
13	Suggested to provide some sessions to develop communications skills and placement training	Considered and incorporated from next academic year	Mathematics

	skills		
14	Suggested to introduce the new course with more research and employability importance and increased more choice of elective paper in the revised curriculum. Suggested to reduced the students strength from 40 numbers to 15-20 numbers to give individual attention in practical classes to enhance the experimental skill	Considered and incorporated in the forthcoming academic year	Microbiology
15	Good opinion on the present curriculum and they suggested adding recent advances in the syllabus.	Considered and incorporated in the academic year and added the recent advance in the syllabus	Physics
16	Suggested more fieldwork experience and practical based syllabus. Recommended to motive the students to acquire knowledge in communication as well as in technical knowledge	considered and the Steps to increase fieldworks and increase the technical knowledge in communication in the courses	Economics
17	Requested to provide technical programme on latest technology and offer courses through online	Considered and introduced online course as short term programmes	Differently Abled Persons
18	Syllabus is updated is very much adequate. suggested to digitizing historical documents/rare books. Translation helps	Considered and resolved in the next academic year	History

	improving bilingual skills		
19	Suggested exclusive training on English language communication and recommended to incorporate one separate model in the syllabus for practical training in spoken and communicative English in the next board of studies	Considered and incorporated in the academic year	Library and information science
20	Suggested that practical exposure in statistics application through SPSS software for future students	Suggestions will be incorporated in the syllabus in the academic year 2017-2018	Social Work
21	Suggested to introduce new core papers of contemporary relevance		Sociology
22	Suggested to selection of reputed civil society organization for students internship by considering the employability of students	Considered and arranged choice of selecting civil society organization for students internship	Study of Social Exclusion and Inclusive Policy
	Suggested additional faculty members and also guest faculty to ensure regular classes. suggested to guide and monitor the field work and improvise the students performance and learning	Considered and request the university for additional faculty members and also guest faculty to ensure regular classes	Womens' Studies
23	Suggested to add more challenging courses on philosophy, to develop critical thinking, soft	Considered and incorporate and introducing a course on philosophy in the next	English

	skills, grammar competency and computer skills	academic year	
24	Suggested to interact with the alumni members	Considered and resolved	Education Technology
25	Suggested for improving the curriculum and teaching learning methods to meet the needs of the industry	Considered and incorporated in the next curriculum revision	Commerce and Financial studies

ACADEMIC YEAR 2016-17

EMPLOYERS

S.No	Recommendations	Action taken	Department
1	Industrial experts suggested new papers, Communication skills and technical knowledge to be introduced to students based on industry application.	Considered and necessary steps were taken for students to improve their communication skills and proficiency in language	Biochemistry
2	Suggested to improve student technical skills by project or internship or training	Considered and arranged project or internship with technical skills	Biotechnology
3.	Suggested to add more skill based studies.	Employers were very much satisfied with the curriculum design and syllabus.	Botany (Plant)
4	Suggested to arrange extra practical classes with technical skills	Considered and implemented	Chemistry
5	Suggested to add more practical hours and experiments. Student should enrich in communication as well as in technical knowledge Suggested to add skill based elective and include new It technologies like LoT, Charbots, React JS,	Considered and arranged in the upcoming forth year.	Computer Science

	Native application development		
6	Suggested to include industries oriented core paper and extra practical classes	Considered and included industries oriented core paper and extra practical classes were arranged with technical skills.	Env. Biotechnology
7	Suggested to include more practical classes for individual subjects, field work and training.	Considered and implemented	Env. Management
8	Suggested to include extra practical classes with technical skills	Considered and implemented	Geography
9.	Suggested to improve extra practical classes, communication skills and technical knowledge skills.	Considered and implemented	Geology
10	Suggested to improve communication skills and include marine industry based hands on training.	Considered and included marine based hands on training.	Marine Science
11	Suggested need more fieldwork experience and strengthened more practical classes for working skill. Improve communication skills and technical knowledge	Considered and steps to increase fieldworks and enhanced technical knowledge	Economics
12	Suggested to improve the industrial based curriculum.	Considered and added in the syllabus.	Social Work
13	Selection of reputed Civil society organizations for student's internship by considering the	Selection of reputed Civil society organizations for students internship were	Study of Social Exclusion and Inclusive Policy

	employability of students.	arranged	
14	Suggested to increase Internship programme.	Considered and resolved the students to make the internship be enhanced to two months and decided to modify the curriculum	Womens' Studies
