

**ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK
ACADEMIC YEAR 2017-18**

STUDENTS			
S. No	Recommendations	Action Taken	Departments
1.	Suggested to revise course structure and the content of the syllabus	Considered and revised	Animal Science
2.	Suggested to include soft skill development course like personality development, manuscript/Project writing etc., can be included in the curriculum structure	Considered and the necessary steps have been taken during the BOS meeting.	Biomedical
3.	Suggested to include soft skills, technical skills, communication skills and personality development program	Student grievances such as soft skills, technical skills, communication skills and personality development programs were arranged.	Computer Science
4.	Requested to strengthen the geochemical lab	Considered and strengthened geochemical lab with new chemical and instruments	Geography
5.	Recommended to student grievances on conducting more soft skill development programmes	Considered and implemented	Marine Science
6.	Suggested to offer new course paper on microbiological techniques, need to increase the number of basic instruments such as an incubator, centrifuge and microscope for M.Sc practicals and suggested to provide fully equipped computer facility with better access of the subject contents, online tutorials and literature survey	Considered and implemented	Microbiology
7.	Students suggested that non-linear dynamics topics should be extended from theory to applications. Many insisted to add the value and skill based courses	Considered and a new skill improvement in problem solving and experimental methods are included in the revised curriculum.	Physics
8.	Suggested to include research oriented facts are improvised in the syllabus which can lend a hand for performing	Placement and campus drive in the process to improve in the academic year 2018-19	Statistics

	well in central government examination, research and development aspects. The content of the syllabus and add advanced analytical skills through software for the technical requirements in IT sectors and research institutes. Recommended to improve campus drive		
9.	Suggested to revised the content of the syllabus and include current affairs. Provide separate class rooms for the woman scholars, M.A and M.phil students. Recommended to provide common first aid box in the department	Syllabus according to current trends has been enhanced. Steps will be taken to provide separate class rooms for M.A, M.Phil students and woman scholars and first aid box in the department will be provided.	Economics
10.	Suggested to arrange hands on training and field visits to enhance the student confidence and exposure. Recommended to include courses with practical knowledge and skill for employment and independent living.	Certificate course in office automation and assistive technology has been upgraded into Diploma in office automation and assistive technology for a duration of one year	Differently Abled Persons
11.	Suggested to need future clarity to understand few of the units from the paper- Foundation of library and information studies, Communication skills.	Considered and the teachers handling the subject advised to make a presentation on the formulation, enactment of the law in general by visiting the websites of the legislative assembly, Parliament, high court and supreme court and explained the different between rules, act and law, provision of implementation of the law	Library and Information Science
12.	Recommended to purchase the multiple copies of the books, suggested to offer self study and value added courses in the academic year 2018-19 and also conducting placement programme for the students	Considered and implemented	Social Work
13.	Suggested to offer two new courses in the content of syllabus and positive	Considered and implemented two new courses on Sociology	Sociology

	feedback on curriculum acquired skills.	of education and Sociology of crime.	
14.	Suggested to revised the sub contents of the core courses	Considered and implemented in the forthcoming academic year	Education Technology
15.	Suggested to evaluate the odd semester courses, in the month of October 2017	Considered and the report were analysed.	Commerce and FS
16.	Suggested to purchase new author books, arrange a field work on a bharathidasan native, to include more field trips. recommended to arrange employment development programmes and organize to meet a Bharathidasan family members	Considered and implemented	Bharathidasan Studies

**ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK
ACADEMIC YEAR 2017-18**

FACULTY			
S. No	Recommendations	Action Taken	Departments
1.	Recommended to implement international syllabus and provoke a number of students to pursue higher studies (PhD) by clearing competitive exams like CSIR/NET/SET	Considered and implemented international syllabus in the BOS.	Biochemistry
2.	Suggested to revised the syllabus	Considered and syllabus has a good balance between theory and application. The course curriculum intellectually stimulates them in teaching.	Biomedical
3.	Recommended to improve lab facility and suggested to furnish standard manuals for reference	Considered and implemented	Biotechnology
4.	Suggested to include more books in the department library and recommended to revise the syllabus	Considered and inclusion of more books on recent development in the field of botany and also satisfied with the revised syllabus.	Botany (Plant)
5.	Suggested to purchase recently published books and more number of prescribed books in the next academic year 2018-19	Teacher grievances such as recently published books and number of prescribed books will be purchased in the next academic year 2018-19	Chemistry
6.	Suggested to purchase an additional number of prescribed books for the current syllabus	Considered and sufficient number of books were purchased	Computer Science
7.	Recommended to attend a refresher course, international conference, seminar to enhance their subject knowledge and to inculcate to the students	Considered and attended the refresher course, seminar and equipping themselves inturn to enrich students knowledge	Env. Biotechnology
8.			Env. Management
9.	Suggested to conduct an advanced training programme in DGPS and GPR faculty members, M.tech, Students and research scholars	Considered and will be resolved in the forth coming academic year.	Geography
10.	Suggested to subscribe journals, recently published books and	Considered and purchased published books and prescribed	Geology

	number prescribed books in the next academic year 2018-19	books	
11.	Requested to the university administration to provide separate department class room and laboratory facilities	University administration accepted to provide adequate space for classroom and laboratory for the department	Marine Biotech
12.	Suggested to subscribe to an adequate number of journals and shore laboratory should be established with sufficient lab and boat facilities for experimental and field study. Recommended to provide museum, aquarium and waiting hall for girl's students	Considered and initiated	Marine Science
13.	Suggested to introduce new integrated M.Sc & Ph.D programme and make field visit as mandatory in all semester related to core course. Suggested to conduct an annual workshop on bioinstrumentation to all postgraduate students to improve their practical skills and include skill based and self employment related elective paper	Considered and will be resolved in the next academic year. Skill based and self employment based new core/ elective course papers were included in the revised syllabus.	Microbiology
14.	Recommended to include additional courses such as electromagnetic theory and Atomic and molecular physics	Considered and changed due to insufficient time to cover the syllabus and recent books are not available	Physics
15.	Suggested to purchase a number of prescribed books and to improve infra-structure facilities in the class room.	Considered and purchased a number of prescribed books. Library resources and availability of published journals and e-content are included	Statistics
16.	Recommended to provide Wi-Fi connection and amenities for smart board classes	Considered and taken to provide Wi-Fi connection and improve the facilities and amenities for smart board classes	Economics
17.	Suggested to include multimedia and technology steps will be integrated methodology with adapted resource materials has enabled the students to acquire the required skill and knowledge	Considered and implemented new value added courses, Certificate courses, Photo editing and 2D animation courses have been introduced.	Differently Abled Persons

18.	Recommended to complete the syllabus in the allotted time and purchase recently published books to related syllabus.	Considered and implemented	History
19.	Suggested to analyze high quality resources particularly practicing knowledge management and marketing of information products in library felt	Procured International edition of the books and subscribed emerald e-journal collection on library and information science	Library and Information Science
20	Suggested to implement a new course, new topics, books, journals in the department. Recommended to include e-learning courses from next academic year onwards	Considered and implemented	Life-long Learning
21.	Suggested to purchase recently published books and to provide adequate space for dance practice & instrument storage	Considered and implemented in the next academic year 2018-19 and space problem will be brought to the notice of the university authorities	Performing Arts
22.	Suggested to incorporate the recently published books in the reference list of MSW, M.Phil and Ph.D syllabus.	Considered and incorporated	Social Work
23.	Suggested that with the limited faculty members to teach all the three teaching programmes in addition to delivering the additional administrative responsibilities to the university, it has been a challenge to cover the syllabus. Additional faculty and guest faculty must be appointed to cover the portions and to do justice to the students. Library be opened to all the students to use it regularly and e-catalogue may be made available	Considered and discussed in the BoS held at 2017-18.	Womens' Studies
24.	Suggested to update the syllabus and ability to complete the syllabus on time	Considered and implemented	English
25.	Suggested to purchase recently published prescribed books	Considered and will be purchase in the next academic year onwards 2018-19	Tamil

26.	Recommended to examine the scope for the inclusion of goods and service tax, gender perspective and professional ethics in the relevant courses	Quality Assurance committee in commerce decided to recommend the board of studies to examine the scope for the inclusion of goods and service tax, gender perspective and professional ethics in the relevant courses	Commerce and FS

ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK

ACADEMIC YEAR 2017-18

PARENTS

S.No	Recommendations	Action taken	Department
1	Appreciated the introduction of value added course	Considered and added the value added courses in upcoming academic years	Animal Science
2	Suggested to improve the content of the syllabus to international standard and Appreciated the campus drive was an excellent move by the department	Considered and raised the standard of our students to international standard	Biochemistry
3	Suggested that the syllabus of the course curriculum developed interest to their ward to pursue research in abroad. To provide industrial visit and training programs for the students	Considered the suggestion given by the parents and students on industrial visit and training program incorporated in upcoming academic years	Biomedical
4	Suggested to Revise the curriculum to meet the industrial requirement and to improve lab facility. Suggested to reevaluation of exam paper	Considered and the syllabus have been revised and lab facility has improved which commence to action from the academic year	Biotechnology
5	Positively suggested that the curriculum design. Mainly pointed out to include personality development measures and also conduct the parent meet in every	Considered and decided to conduct the parent meet in every semester and also action taken for personality development of the students	Botany (Plant)

	semester		
6	Suggested to develop campus recruitment for students. Recommended to change the content of the syllabus according to current working applications	Considered and implemented campus drive, syllabus were included according to current trends.	Computer Science
7	Parents suggested that the students placement could be developed	Placement interview conducted in the forthcoming academic year	Env. Biotechnology
8	Suggested to conduct BOS meeting in periodically. Recommended to given sufficient practical knowledge and to improve campus drive.	Considered and incorporated in the forthcoming academic year	Geology
9	Suggested hands on training and staff for handling equipment and request for industrial visit. Mentioned student internship guidance, increase on co-curricular activities, collaboration with foreign universities	Considered and implemented	Life Science
10	Parents suggested about their future job opportunities for students	Faculties assured parents to organize more campus recruitments in the upcoming years	Marine Biotech
11	Suggested sufficient practical/ field oriented hands on knowledge. Recommended to revised the syllabus based on employability	Considered and more field trips/industrial/institutional visits should be arranged.	Marine Science
12	Suggested to take special coaching to slow learners	Considered and special coaching , remedial classes	Microbiology

	for better performance and provide lift facility for elderly parents	for slow learners will be conducted from the next academic year	
13	Suggested to make experiment related courses, wanted more exposure in the syllabus, need to improve laboratory facilities	New skill improvement in problem solving and experimental methods are included in the revised curriculum	Physics
14	Suggested to include advanced content of the syllabus and updating it with the application of study content through software at times, placement requires to be improved	Placement and campus drive is in the process to improved in the upcoming academic year	Statistics
15	Suggested to provide skills to get jobs and give more quality content in the syllabus relevant to the contemporary issues. Recommended to change the syllabus according to current changes for applications	Considered and improved skills to get jobs and to enhance the quality content in the syllabus according to current working applications	Economics
16	Suggested to conduct programme for students with speech and hearing impairment, vision impairment, locomotor disability and intellectual disability.	Considered and implemented	Differently Abled Persons
17	Suggested to introduce papers on Archaeology, American history, Archives keeping, Basic geography and Epigraphy. Suggested to include computer knowledge	Considered and implemented	History

	related paper and field studies. TNPSC exam related papers were suggested.		
18	Suggested to need get trained on the avenues of research, the opportunities for students to pursue the research after their post graduate with fellowship	Considered and incorporated in the forthcoming academic year	Library and Information Science
19	Suggested to promote learning experience, employability, skills, personality development, intellectual stimulation for the existing syllabus. To improve the syllabi by including advanced concepts of stimulation	Considered and included new concepts related to campus recruitment, practical knowledge and self employment in the curriculum.	Life-long Learning
20	Suggested to conduct BOS periodically to meet the current trends and requirements	Considered and enhanced in the next academic year (2018-2019)	Performing Arts
21	Suggested to add diploma courses	Considered and introduced	Social Work
22	Suggested to Field work arranged by the faculty members to get proper response from NGOs. Materials related to the recent development are made available to students. Suggested to access internet to download reading material and online submission of assignments etc	Considered and Field work has been made as an integral part of the syllabus with each unit holding field work components. Arrangements from field work is being made with NGOs	Womens' Studies
23	Suggested to conduct board of studies	Considered and incorporated the next	Tamil

	periodically to meet the current trends and requirements	academic year	
24	Suggested to update curriculum including courses that help the students to get job in the banking and insurance	Considered and decided to recommend the board of studies to include the courses namely commercial banking, Insurance and Risk management	Commerce and FS
25	Suggested to provide employment based information to student. To Organize competitive exam coaching and recommended to develop reading magazines and news paper habit	Considered and incorporated in the forthcoming academic year	Bharathidasan Studies

ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK

ACADEMIC YEAR 2017-18

ALUMNI

S.No	Recommendations	Action taken	Department
1	Suggested certain topics in the view of student are making them tedious in understanding and finding it difficult for which counseling and motivation could favour progress. Alumni related activities can be entertained	Considered and implemented	Biochemistry
2	Alumni apprises practical classes are good enough into various research techniques	Considered and incorporated in upcoming academic years	Biomedical
3	Suggested to arrange campus drive and improve the hands on training or workshop of practical skills	Recruitment drive will be enhanced and hands on training or workshop will be provided based on curriculum	Biotechnology
4	Suggested to improve the laboratory facilities and conduct alumni meeting regularly	Considered and as per the suggestion add recent developments in the field of botany in the academic year. In syllabus few skills based courses were added	Botany (Plant)
5	Suggested to strengthening the syllabus according to current needs of the society. Recommended to motive the students acquire knowledge in communication as well	Considered and included more practical based syllabus. Elective course and IT technologies were included in the forthcoming years	Computer Science

	as in technical knowledge and Need skill base elective and include new IT technologies		
6	Requested to conduct alumni meet regularly	Considered and incorporated	Env. Biotechnology
7	Requested to conduct more practical and field oriented courses for students. Recommended to offer practical papers for each semester	Considered and incorporated as per the suggestion.	Env. Management
8	Suggested to participate video conference meeting from other states and abroad. Recommended to need MOU with industries	Alumni related activities have to be enriched in the academic year with video conference and would take necessary steps for MOU with industries	Geography
9	Suggested to improve alumni related activities	Considered and incorporated in next academic year	Geology
10	Suggested to improve the course curriculum and infrastructure facility	Considered and implemented	Life Science
11	Suggested introduce certificate courses for students especially in bioinstrumentation	Considered and to planned certificate course on Bioinstrumentation for current M.Sc students	Marine Biotech
12	Alumni meeting should be conducted regularly and department activities should be shared with alumni students	Considered and incorporated from next academic year	Marine Science
13	Suggested to periodical maintenance of basic and advanced instruments in the laboratory. Campus	Considered and as per the suggestion necessary action were taken for the annual maintenance of	Microbiology

	<p>interview to be conducted every year. Coaching for competitive examination for NET,SET and GATE offered in the Department. Suggested compulsory summer training to be taken by all the students during their semester holidays. suggested lift facility in the department for physically challenged students.</p>	<p>basic and advanced instruments in the Laboratory</p>	
14	<p>Good opinion on the present curriculum and they suggested adding recent advances in the syllabus.</p>	<p>Considered and incorporated in the academic year and added the recent advance in the syllabus</p>	<p>Physics</p>
15	<p>Highly satisfied with the content of the syllabus as it specially hold the techniques and tools used in implementation of real time problems. Syllabus is enhanced with the scope of research topics in association with implementation of analytical skills in different area.</p>	<p>Alumni related activities have to be enriched in the academic year 2018-2019</p>	<p>Statistics</p>
16	<p>Suggested the final year project is to be strengthening according to the current need of the society and to improve teaching skill for students and scholars</p>	<p>Considered and steps to enrich communication and technical knowledge has been taken. Teaching skills to students and scholars will be provided. Final year project are strengthened according to current needs of the</p>	<p>Economics</p>

		society	
17	Alumni requested to offer courses through online. Appreciate the curriculum and infrastructure	Online courses will be designed and introduced as short term programmes	Differently Abled Persons
18	Recommended the Syllabus to updated is very much adequate. suggested Specification on gender perspective related to the history. Translation helps improving bilingual skills	Considered and resolved in the next academic year	History
19	Suggested exclusive training on English language communication and recommended to incorporate one separate model in the syllabus for practical training in spoken and communicative English in the next board of studies	Considered and incorporated in the academic year	Library and information science
20	Feedbacks such as update of syllabus, lecture, discussion, expectations are encouraged. More activities involving alumni will be conducted	Considered and incorporated in the syllabi of M.A HRM and MPhil HRM programmes. Further office management skills will be enhanced and imparted to the student in the ensuing years	Life-long Learning
21	Suggested alumni related activities have to be improved	Considered and Incorporated in the academic year 2018-2019	Performing arts
22	Suggested to improve the infrastructure facilities	Considered and infrastructure facilities like	Social Work

	and need new courses	smart class room with LCD and courses on social work in criminology and justice, certificate course on Data analysis using SPSS with AMOS, Diploma in counseling and Guidance, Diploma in Human Resources management will be introduced from the academic year 2018-2019	
23	Suggested to improve the course content	Considered and incorporated in the upcoming year	Sociology
24	Suggested to introduce the students internship and field practicum	Considered and field practicum has been introduced to the MA	Study of Social Exclusion and Inclusive Policy
25	Suggested to involve with the nature of projects and need based areas. Increase Internship for students	Considered and resolved	Womens' Studies
26	Alumni related activities have to be improved	Considered and Incorporated in the academic year 2018-2019	Tamil
27	Suggested to add more challenging courses on philosophy, to develop critical thinking, soft skills, grammar competency and computer skills	Considered and incorporate and introducing a course on philosophy in the next academic year	English
27	Suggested to interact with the alumni members	Considered and resolved	Education Technology
28	Suggested of different dimension for improvement in curriculum and including	Considered and incorporated in the next curriculum revision and added the value added	Commerce and Financial studies

	the course that promote entrepreneurship	course on mutual fund and financial planning to promote the financial entrepreneurship.

ACTION TAKEN REPORT ON STAKEHOLDERS FEED BACK

ACADEMIC YEAR 2017-18

EMPLOYERS

S.No	Recommendations	Action taken	Department
1	Industrial experts suggested new papers, Communication skills and technical knowledge to be introduced to students based on industry application.	Considered and necessary steps were taken for students to improve their communication skills and proficiency in language	Biochemistry
2	Suggested to revise the syllabus and arrange student internship	Considered and implemented from the next academic year onwards.	Biotechnology
3	Suggested to add more skill based studies.	Employers were very much satisfied with the curriculum design and syllabus.	Botany (Plant)
4	Suggested to add more skill based studies.	Employers were very much satisfied with the curriculum design and syllabus.	Chemistry
5	Suggested to strengthen the practical based syllabus and add skill based elective and IT technologies.	Considered and arranged in the upcoming forth year.	Computer Science
6	Suggested to include industrial health and Safety management course and to initiate strong industrial and academic collaboration	Considered and the courses were included in the syllabi. MoUs with Tamil Nadu pollution control board, Chennai and Central pollution control board, New delhi.	Env. Biotechnology

7.	Suggested to need MoUs with industries	Considered and necessary steps for MoUs with industries.	Geography
8.	Suggested to improve extra practical classes, communication skills and technical knowledge skills.	Considered and implemented	Geology
9.	Suggested to improve communication skills and include marine industry based hands on training.	Considered and included marine based hands on training.	Marine Science
10	Suggested to improve communication skills, research skills and teaching capabilities with deep depth in subjects.	Considered and incorporated in the forthcoming academic year	
11	Suggested need more fieldwork experience and strengthened more practical classes for working skill. Improve communication skills and technical knowledge	Considered and steps to increase fieldworks and enhanced technical knowledge	Economics
12	Suggested to improve the communication skills, creative thinking, solve work place problems and employability skills.	Considered and added the communication skills, creative thinking and employability skills were added in the syllabus.	Lifelong leaning
13	Suggested to improve dance coaching Skills for M.P.A students.	Considered and dance coaching classes were included in the forth coming academic year.	Performing arts
14	Suggested to improve the syllabus	Considered and steps were taken for improved the syllabus.	Social Work
15	Suggested to increase	Considered and resolved the students to make the	Womens' Studies

	Internship programme.	internship be enhanced to two months and decided to modify the curriculum	
	Suggested to improve communication and technical knowledge skills	Considered and improved in the forth coming year.	Tamil
