

Alumni Members

Name	Year of Awarded	Thesis Title
Dr. V. R. Muthukumar	Nov 2011	Isolation and characterization of thiocyanate degrading bacteria from sago effluent contaminated site
Dr. R. S. Ganeshkumar	Sep 2012	Identification and evaluation of air pollution tolerance plants around thermal power station – A molecular ecological approach
Dr. P. Vishwanathan	Dec 2012	Assessment of genetic variation influenced by heavy metal pollution on green mussel (<i>Perna viridis</i>) in south Indian coastal region using molecular markers
Dr. T. Selvankumar 	Apr 2012	An inventory study of biosolid (Coffee) waste degradation and energy recovery to minimize the greenhouse gas emissions
Dr. P. R. Abhilash 	Feb 2016	Environmental assessment and development of management planning strategies to restore the land and water resources of Tiruppur area using remote sensing and GIS
Dr. M. Selvaraj 	Apr 2016	Landscape ecological evaluation of Pachamalai reserve forest using remote sensing and GIS techniques
Dr. L. Macklin Rani	Dec 2014	An assessment of natural radionuclide ²¹⁰ Po and its impact on bioresources through dietary sources around Kanyakumari coast
Dr. P. Kumar 	Jan 2015	Phloroglucinol from ecologically important marine brown algae <i>Sargassum tenerrimum</i> : isolation, quantification, encapsulation and therapeutic applications
Dr. B. Sarojini Devi 	Aug 2016	Assessment of land use/land cover changes, climatic factors and its impact on wetlands in Ramanathapuram taluk of Tamil Nadu using remote sensing and GIS
Dr. P. Suganthi 	Apr 2017	A study on vector ecology in Sitheri Hills of Dharmapuri District, Tamil Nadu using spatial technology and bioassay for mosquito control
Dr. Rajiv Das Kangabam 	Mar 2017	A study on landscape limnology of Loktak lake in Indo-Burma biodiversity hotspot region
