

In association with Indian Association of BioMedical Scientist, Department of Biomedical Science organized a scientific talk on "Mapping Sleep-wake control to an evolutionarily conserved transcription factor" delivered by one of our old student Dr. Vinodh Ilangovan, Research Fellow, Max Planck Institute, Germany on 27th January 2016, 2.30pm.

We thank Indian Association of Biomedical Scientist's President Prof. T. Thirunalasundari, Professor and Head of the Department of Industrial Biotechnology introduced, and given brief history about prestigious IABMS.
