

Science Academies sponsored Lecture Workshop on Emerging Trends in Chemical Synthesis (ETCS) was organized at School of Chemistry, Bharathidasan University Tiruchirappalli-24 March 22-24, 2018. The workshop aims to give a plethora of latest trends in various disciplines of Chemical Sciences to the students and College/University teachers, especially from rural areas. It also targets to kindle the inquisitiveness of the young minds and orient them towards taking up higher studies in Chemical Sciences. It also provided a platform for the fruitful interaction of students and faculty members with a galaxy of eminent academicians from leading research institutions in India. Different areas Chosen for Lectures are Materials Chemistry, Bioinspired Materials, Organic Synthesis, Main Group Chemistry, Natural Products Synthesis, Organometallic Chemistry and Catalysis .The following distinguished and eminent scientists acted as resource persons to deliver lectures in the workshop. Prof. Dr. R. Murugavel, FRSC, FASc, FNA Department of Chemistry Indian Institute of Technology Bombay, Mumbai Prof. Dr. Balaji R. Jagirdar, FASc Department of Inorganic and Physical Chemistry Indian Institute of Science, Bangaluru - 560 012 Prof. Dr. K. P. Kaliappan, FRSC, FASc Head, Department of Chemistry Indian Institute of Technology Bombay, Mumbai Prof. Dr. S. Sankararaman, FASc Professor, Department of Chemistry Indian Institute of Technology Chennai. Prof. Dr. P. Selvam, FRSC Professor, National Center for Catalysis Indian Institute of Technology Chennai. Prof. Dr. P. Thilagar Department of Inorganic & Physical Chemistry Indian Institute of Science, Bangaluru-560 012 Prof. M. Palaniyandavar, FRSC, FASc, FNA, INSA Honorary Scientist, School of Chemistry, Bharathidasan University, Tiruchirappalli - 620 024 acted as Convener and Prof. Dr. A. Ilangoan, Chair and Head, School of Chemistry Bharathidasan University, Tiruchirappalli – 24 acted as Coordinator.
